

Acceptable use of Technology by Staff USD 378, Riley County, Kansas

The Children's Online Protection Act (CIPA), passed by the 106th Congress of the United States, requires schools and libraries receiving specified federal funding certify they have in place an Internet Safety Policy that includes monitoring the use of the Internet access and implementation of technology that will filter out objectionable content.

In compliance with CIPA, USD 378, Riley County has installed Websense that acts as a monitor and filter of Internet content. Websense maintains reports identifying computers and users attempting access to objectionable sites. These reports are then forwarded to the appropriate administrator.

By signing this document, I affirm the following:

1. I understand a CIPA compliant Internet filter is in place and any objectionable sites I may visit are tracked and reported.
2. I have received a copy of the district's Acceptable Staff Use of Information Retrieval Systems. (Board Policies IIBG & GAA & Staff Handbook)
3. I will comply with the district's Acceptable Staff Use of Information Retrieval Systems.
4. I understand any violation of the district's Acceptable Staff Use of Information Retrieval Systems may result in disciplinary action.
